FEATURED PROJECTS

01

SIF TERMINAL ROTTERDAM

Marshalling of all SIF terminal logistics for more than two years, supply engineering services, barge outfitting, load-out and load-in logistics, installation works, sea-fastening, lashing and securing. Safe, efficient and all within planning.

02

GALLOPER WINDPARK

For the Galloper Windfarm Q3 Heavy Lift arranged and coordinated two barge trips from SIF Rotterdam to BOW Terminal Flushing. Per barge two (2) 1000Ts Monopiles were roll-on two barges and transported to Flushing.

03

BEATRICE WINDFARM

Our scope of work included construction and installation of grillage onto various barges for jacket piles and jackets.

FEATURED PROJECTS

04

PROJECT DUDGEON

We managed the marshalling yard of this project over a period of 9 months. Port calls of Mv Oleg Strashnov— assigned to transportation and installation of Dudgeons 67 Monopile and Transition Pieces - to Verbrugge Terminal Flushing were efficiently managed and loss of valuable time was avoided.

05

ALLSEAS RELOCATION

Q3 Heavy Lift managed the relocation and performed the entire logistics guided by our QHSE staff with a risk assessment. We managed chartering of barges, tugs, cranes and transport barges, on site transport crewing and engineering of transport and lift drawings, storage and stowage plans.

06

PROJECT BORSSELE

In order to lay 65 km of export cable for a TENNET project the shallow draft barge Boskalis Giant 7 was fully converted. Q3 Heavy Lift managed the whole conversion from start to finish, in close cooperation with the Boskalis project team. We delivered a state of the art cable laying barge within time and budget.

Freight Forwarding

Our understanding of integrated services planning helps our clients to gain the required insights upfront any Freight Forwarding project. We provide a complete carefree solutions package, including engineering, design , manufactur- ing and installation. Saving you time and money.

Pre-Lift Planning

Heavy Transport

Heavy Lift

Marine Management

With vast theoretical and hands-on operational experience our team converts complex Logistical challenges into workable solutions. We offer a full range of services for on-shore and off-shore onward movements of any size load or shipment.

IT Services

Planning

Staffing

Site Management

Clear communications to all stakeholders, a well trained staff, transparent coordination procedures, proper planning and a well kept administration. Q3 Heavy Lift ensures all involved parties are on the same page in the same time frame.

**With our vast international network of dedicated partners
we are able to execute your project save, swift and efficient, every time, everywhere**

(DE-) MOBILISATION

RIGGING & OUTFITTING

Before

Q3 Heavy Lift managed the conversion from start to finish including the purchase, engineering and installation of maritime “cutting edge technology” systems. All requiring professional preparation and handling managed in time and within budget.

PROJECT GIANT 7

Boskalis semi-submersible barge Giant 7, equipped with a 600ts crane and an accommodation unit for around 70 people needed conversion for its shallow water cable laying works on a TENNET 65 km export cable project.

After

END OF LIFE CYCLE

DECOMMISSIONING

Sustainable decommissioning takes a well trained staff and in-depth expertise of modular dismantling. Getting things done, safely, on time and within budget is our speciality.

A growing number of oil and gas platforms are at the end of their life cycle this means decommissioning assignments will increase over the next few decades. Every decommissioning is different and needs proper tailored planning and execution. Q3 Heavy Lift is your able partner to assist in complex decommissioning projects.

GETTING THINGS DONE

HANDS-ON EXPERIENCED MANAGEMENT AND STAFF

FOUNDING FATHERS

Q3 Heavy Lift specializes in cost efficient and effective solutions for on- and off-shore logistical services. We gained our knowledge as experienced heavy transport and freight forwarding specialists over many decades and have effectively evolved into a full logistical service supplier able to manage all your complete Heavy Cargo, Heavy Lift projects and challenges.

Floris Bomers

✉ f.bomers@q3heavylift.com

☎ +31 - 6 573 000 73

Floris Bomers has an extensive engineering and operational background in heavy transport. In previous roles he was Project Engineer & Manager Engineering at Jumbo Shipping; Manager Operations at Scaldis; Operations Manager at Conquest and Site and Project Manager at Seaway Heavy Lifting.

With his technical and operational know-how Floris brings the indispensable added value to the table that is needed to deliver proper solutions in the execution of challenging heavy transports over land and sea.

Vincent de Wilde

✉ v.dewilde@q3heavylift.com

☎ +31 - 6 528 416 26

Vincent de Wilde served as a Site-, Project- and Operations Manager for several major projects. He worked at Sarens managing heavy cargo road transport and heavy lift projects and served as a operations / project manager for BOW Terminal.

At Allseas Engineering Vincent was involved in the transport, storage and installation of the topsides lift system on the Pioneering Spirit - the largest construction vessel in the world.

Vincent has vast experience and in-depth knowledge of Heavy Lift cranes and modular transports, mobilizations, demobilizations and chartering of ships.

Based on your assignments requirements we put together a dedicated team of specialists to handle any logistical challenge. With a vast international network of dedicated partners we are able to execute your project swift, safe and efficient, every time, everywhere.
